

# New Features in Projectmates V19.0

## Revamped Bids & Plan Room

With the version 19.0 release, Projectmates will be enhancing the user interface for the Bids & Plan Room. This upgrade will reorganize how bids are viewed with the intent to simplify the submission process for bidders.

- Bid information has been organized into several tabs for more intuitive navigation and to minimize scrolling.
- The status of a bid and its due date have been further emphasized, and will appear on all tabs of the bid.
- Bidders who have not yet submitted a bid must view all bid addenda before submitting.
- Customizable Terms and Conditions checkbox for bidders.

## Instant Integration Enhancements

### File Attachments

File attachments can now be sent out from Projectmates along with their corresponding data for both Invoice and Contract instant integrations.

### OneDrive Connector

In addition to Box and Dropbox, **OneDrive** can now be used as a connector between Projectmates and your internal ERP systems.

## Fund Summary Ad Hoc Report

A Fund Summary Ad Hoc Report has been added to compliment Version 18.8's Capital Project Report. Similar to the Fund Summary tab under Capital Planning, this report type focuses on displaying how your funds have been distributed between capital projects, and on what fiscal years.

Available columns for the Fund Summary Ad Hoc Report include Capital Project, Capital Project Number, Fund Name, Fund Number, Fund Group Name, Allocated Funds, Allocation Percent and more.

Fund Name ▾	Capital Project ▾	Allocated Funds ▾	Fiscal Year ▾
